Collection no. 195 Grenfell, Griffith, etc.
11–16.i.1979 [Plant identification by N.S.W.
K.H.L. Key L.G. Adams]

11/1. Car park at end of Holy Camp road
(= 457.0) Gen. nov. 95 ochracea, Phaulacridium
vittatum

12/1. 12440.7. Grenfell. Took Holy Camp
road.

457.0. A. Car park at end of road (start of track
Goniaea opomaloides, Peakesia hospita,
up mountain). Gentle slope with brown soil,
Phaulacridium sp. 3
occ. sandstone exposures. E. sideroxylon to
50ft, Callitris endlicheri to 40ft, Cassinia sp.
to 5ft, scattered acaulescent Macrozamia
to 1ft, Helichrysum semipapposum & a
large-flowered yellow Helichrysum both to 18in,
scattered dry ferns.
occ. shrublets to 9in, thin grasses to 1ft,
Eualdrie
B. Up track to trig. station. Increasing
Macrotona australis, Goniaea australasiae,
slope & rocks. 3 spp. eucalypts, shooting after
Gastrimargus musicus, Austroicetes frater, Cirphula
severe fire a few years back. Acacia spp.,
pyrrhocnemis, Ph[illegible] Mingaacris nana [illegible], P. vittatum
Cassinia spp., Dodonaea sp., Indigofera sp.,
all to 4ft, some C. endlicheri. Return.

457.9. Similar to last, but less Callitris &
Brachyexarna lobipennis
some stringybark. Partly cleared, with

dense growth of Cassinia to 3ft, a tussock grass with inflorescence to 3ft, patches of Helichrysum apiculatum to 1ft.

473.5. Grenfell. Return to Holy Camp road.

478.4. Return.

13/1.

12 486.4 Grenfell. Took Bimbi road.

500.5. Watercourse (shallow) (Emu Creek) with E. melliodora, E. largiflorens (?), & occ. E. camaldulensis. Bermius brachycerus, Phaulacridium vittatum Plantago, Paspalum dilatatum, sedges, & other grasses, 6 in to 2ft. No Atractomorpha

506.9. Road to Thuddungera on left.

510.8. Entrance to Weddin State Forest (between two kurrajongs).

513.4. Turned right.

514.0. Turned left.

514.9. Return.

518.4. Followed Mill CR. valley up mountain to left for ca. 45 min, then climbed up side on to ridge & returned to road along ridge.

Grassy patches along valley, with Phaul.
Exarna includens, Goniaea australasiae, Eumecistes
vittatum frequent. On ridge a considerable
gratiosus, Cirphula pyrrhocnemis, Phaulacridium nanum,
area of gentle slope with E. ~~blakely~~
Goniaea opomaloides
dealbata, Callitris sp., ~~b~~ Casuarina sp. to 12ft,
Grevillea spp., Xanthorrhoea spp., Hibbertia
sp., + other small shrubs, occ. Helichrysum
semipapposum. Eumecistes, Exarna, Phaul.
nanum + Cirphula pyrrhocnemis in this
community, with occ. Goniaea opomaloides.

519.6. Exit from State Forest.

531.8. Bimbi

533.5. Bimbi depart.

544.8 Bribbaree. Return.

547.4. Creek with E. camaldulensis to 60ft.
Bermius brachycerus, Peakesia hospita
Fringing sedges to 3ft + grass to 6 in.
No Atractomorpha.

556.1 Burrangong Ck. E. camaldulensis
fringing steep-sided creek with some Paspalum
+ short grass. No Atractomorpha.

556.3. Bimbi. Turned left on Quandialla road.

558.0. Turned right on "Nowlans" road.

603.9. Grenfell (via. Weddin View road).

14/1.

12604.7. Grenfell depart.

639.4. Bimbi

647.3. Turn-off to Bribbaree on left.

662.5. Creek with E. camaldulensis & E.
Schizobothrus flavovittatus, Peakesia hospita
microcarpa to 60ft. Paspalum dilatatum & P. distichum on slightly self-mulching brown soil. No Atractomorpha.

664.7. Turn-off to Quandialla on right.

666.7. Bland Ck. crossing. E. camaldulensis
Bermius brachycerus, Peakesia hospita
to 60ft. Grasses & sedges to 3ft. Bermius abundant. No Atractomorpha. (Morungarell not seen)

667.4 Narraburra Ck. crossing. E. camaldulensis
Rapsilla fusca
to 60ft. Sedges, grasses, leaf litter. No Atractomorpha.

679.7. Duck Ck. crossing. Cleared from E.
Bermius brachycerus, Macrotona securiformis
camaldulensis. Grasses to 3ft, some Rumex. No Atractomorpha.

gentle
686.5. Western slope of granite ridge. E.
Phaulacridium sp.3
microcarpa, E. dealbata, Callitris glauca.
Casuarina luehmannii to 40ft, patches
of a myrtaceous shrub to 8ft, sparse grass +
dry forbs, patches dry fern (?Cheilanthes),
much leaf litter.

693.5. Barmedman Ck. (not investigated).

697.9. Barmedman.

728.8 Ariah Park.

760.1. Turned right.

762.0. Ardlethan. ~~[illegible]~~.

778.9. Red-brown sand on gentle slope.
Hispidoacrida roseipennis, Eurlecistes gratiosus,
Mallee, E. sideroxylon, Kurrajong, 20-30 ft,
Macrotona australis, Phaulacridium sp.3, Cappigera sp. P51a/
with broombush to 7ft, shrub harbouring
Beyeria leschenaultii (D.C.) Baill. (Euphorbiaceae) 53a
Hastroacrida (spec.), Grevillea sp., + Acacia
apiculatum (Kyacris nymphs on)
spp. to 5ft, scattered grasses. Helichrysum)

785.7. Moombooldool.

850.1 Griffith

15/1.

850.1 Griffith depart.

870.9. Turned left on Barry's scenic drive.

874.8. Took right fork.

883.0. Turned left.

885.8. Slope with brown soil & some stone.
both to 30ft,
E. populnea, E. dealbata & Acacia spp.
(3 or 4) 6–15ft. Various grasses to 1ft,
Helichrysum spp., & Cheilanthes abundant
in patches. No P48.

898.2. Took left fork.

902.9. E. sideroxylon, E. dealbata, & Callitris
Cirphula pyrrhocnemis, Oedaleus australis,
endlicheri, all to 40ft, with Acacia sp. (long
Goniaea opomaloides, Genus nov. 95 ochracea,
narrow phyllodes) to 15ft, miscellaneous shrubs
Heteropternis obscurella, Macrotona australis,
to 3ft, including Styphelia sp. & Stypandra.
Phaulacridium sp. 3, Pespulia sp. 9
Some grass & forbs, Cheilanthes, & litter.

Summit of rise, brown sandy loam, some
rock exposure.

919.2 Turned right into Whitton stock route.

926.6. Turned right.

929.8. Rankins Springs.

930.3 Rankins Springs depart

933.7. Whitton Stock route off to left.
944.3. Road to Griffith off to left.
950.7 Road to Griffith on left.
955.4. Return.
958.2. Merungle road to left.
958.6. The Gap (saddle in ridge). No sign of P48.
977.3. Turned right along Whitton stock route.
988.2. Eight Mile Tank road off to right.
13008.6. Back on highway (distance wasted)
Turned left.
019.0. Turned left for Griffith.

16/1.

13070.8 Griffith depart for Yenda.
091.2. Turned left on to Barry's Scenic drive
095.1. Turned left on to Whitton Stock route
105.1. Road in on left from Yenda.
107.6. Turned right for Mt. Bingar.
111.9. Mt. Bingar (summit). ~~[illegible]~~.
Phaulacridium sp. 3, M. nanum, Urnisa guttulosa,
E. macrorhyncha, E. dealbata, E. sideroxylon,
+ narrow-phyllode Acacia sp.;
Callitris endlicheri, tall to 25ft, with Grevillea
Goniaea opomaloides, G. australasiae, Cirphula

Collection No. 195

pyrrhocnemis, Macrotona australis,
Acacia armigera,
sp., Hibbertia sp., [+ various other shrubs to 2-6ft
Helichrysum semipapposum to 2ft.
Dianella + Cheiranthes in patches. At
Coryphistes ruricola, Apotropis tricarinata,
radio station completely cleared, with bare
Austroicetes frater, Caposigera sp. P51a/153a
gravelly brown soil. Further out with trees
Massive conglomerate exposures
cut + shrub growth denser + shorter. Return.

181.7: Moomboolool.

307.7 Stockinbingal
(Bland Ck.).

307.9. Creek crossings; Cleared from E. camaldulensis
Bermius brachycerus
Paspalum dilatatum + P. distichum, Typha,
+ Rumex. No Atractomorpha, but promising
site.
